WORK EXPERIENCE (3 Years)

WowV Technology – SOFTWARE DEVELOPER REACTJS –

April 2023 - Feb 2024

- Experienced React.js developer with a proven track record of crafting responsive and visually appealing user interfaces.
- I specialize in seamless API integrations and dynamic coding to deliver efficient and engaging web applications. Proficient in creating intuitive user experiences and adept at tackling complex challenges with smart, innovative solutions. Committed to continuous learning and staying updated with the latest trends in web development to drive projects to success.
- Proficient in leveraging cutting-edge technologies and industry best practices to drive innovation and deliver exceptional results.

Embel Technology – SOFTWARE DEVELOPER REACTJS –

Jan 2021 - March 2023

- Dynamic React and Website Developer with over a year of hands-on experience at Embel Technology, specializing in crafting innovative solutions for projects spanning finance and business domains. Proficient in building responsive and dynamic user interfaces while leveraging React.js.
- Demonstrated expertise in collaborating with cross-functional teams to deliver high-quality products tailored to client requirements. Committed to driving excellence through continuous learning and adapting to emerging technologies in the ever-evolving tech landscape.

WHIZ IT Services (Internship)

– MERN STACK DEVELOPER

Sept 2020 – Nov 2020

- Web Pages Designing
- Database Creation
- API Creation

PROJECTS

SS-Restaurant – CLIENT PROJECT – Builder.ai Frontend: HTML, CSS, JavaScript, React.js (for web application)

- SS Restaurant Management System is a comprehensive solution designed to streamline operations and enhance customer experience in a restaurant setting. The system encompasses both customer-facing interfaces and backend management tools to facilitate smooth operation of the restaurant.

MK_Blackhat – CLIENT PROJECT – Builder.ai Frontend: HTML, CSS, JavaScript, React.js (for web application)

- As a UI developer, my role involved creating visually appealing and user-friendly interfaces to enhance the overall user experience of the system.
- By focusing on user interface excellence and leveraging cutting-edge technologies, MK Laundry Management System aims to revolutionize the laundry service industry in Dubai, providing customers with a seamless and convenient experience while optimizing operations for the business.

Inversity Project – CLIENT PROJECT – Builder.ai

- Inversity Task Management System is a comprehensive platform designed to streamline task management processes for businesses, students, and subject matter experts

Faceless Loan Project

- Created friendly interface allowing borrowers to submit loan applications online without the need for physical documentation. Creating an EMI calculator using React.js hooks involves creating a functional component.

Embel Website Project

- Created attractive website for Embel Technologies from scratch using HTML, CSS, and JavaScript

Billsoft Project

- I have created attractive, user-friendly and responsive UI for Billsoft. It is a simple billing software designed to help businesses manage their invoicing and billing processes efficiently.
